Technical Skills

- Autodesk Maya
- Substance Painter
- Unity
- Unreal Engine
- AutoCAD
- Adobe Photoshop

Personal Skills

- Enjoy collaborating with others.
- Responsive to feedback
- Working effectively to meet deadlines.

Achievements

- DofE Bronze

CV / Harry Pye

I have concluded my final year at Winchester university, having received my final mark of a 2:1 for my course. I have been working with software such as Maya, Unity and Unreal Engine to create 3D components for projects. The course has allowed me to experiment with different 3D tools and techniques when building scene environments. It has taught me skills relating to UV editing and texturing. I am looking to develop my skills further and gain more industry knowledge through work experience at your company.

EDUCATION

University of Winchester, Digital Media Development in 3D Environments (Game & Heritage)

(Sep 2018 –May 2021) **Final Mark: 67%**

Award: [Bachelor Of Science With Honours in Digital Media Development In 3D Environments \(Game & Heritage\) with Upper Second Class Honours](#)

First year – Learning the basic tools in Maya, using Vuforia in Unity, animating in Maya, UV Editing in Maya, coding our own websites, Building game in Unity

Second Year - Client projects, Texturing in Maya, Rendering in Unreal engine, Making components for AR and VR in Unity.

Third Year – I worked on two client projects using all my knowledge of Maya, Substance painter, Unreal engine to recreate the Cheyney court building from Winchester city and an Anglo-Saxon water mill. These are project that can all be found on my website.
